

MD SHAD ALI (Full Stack Engineer)

+91 8797949537 | mdshad7822@gmail.com | mdshad.com | linkedin.com/in/mdshad | github.com/shadmax22

Profile Summary

Focused Full Stack Engineer (Node.js + React) with 4+ years of experience building LLM systems, automation pipelines, and scalable SaaS/ERP platforms. Specialized in RAG, semantic code search, serverless architectures, and frontend architecture. Delivered cost-savings, built custom libraries, and led complex product modules end-to-end.

- Engineered a critical cost optimization initiative by migrating the Fintech application architecture to serverless functions and implementing advanced caching, resulting in a 70% reduction in server costs.
 - Led the development of a smart **AI-Powered POS System** with facial recognition and real-time AI chat, significantly boosting customer engagement and sales efficiency.
 - Designed a **scalable frontend** using **Atomic Design** and developed a custom library (**react-usethis**) to simplify global state management.
-

Skills

1. **LLM:-** RAG, Embeddings, ChromaDB, Tree-sitter (TS AST), Dependency Graphing, Code Agents, Chunking
 2. **Frontend:-** React, React Native, Typescript, Tailwind, MUI, Atomic Design, DDD UI Architecture
 3. **Backend:-** Node.js, Fastify, Express, Laravel, Python, MySQL, MongoDB, Redis, REST APIs
 4. **State Management:-** Redux, API-driven UI Rendering, React Context
 5. **Infra & DevOps:-** AWS EC2, Lambda, GitHub Actions, CI/CD, Monitoring & Rollbacks
-

Work Experience

Full Stack Engineer (Node.js & React)

BranchX India Pvt Ltd - Bengaluru

Nov 2024 - Present

Full Stack Web Engineer (Laravel + React)

Express Parcel Man Logistics Pvt Ltd - Bengaluru

March 2023 - Nov 2024

Frontend Developer

Reman Life Care Pvt Ltd – Noida (Part-time) (Remote)

April 2021 - Feb 2023

Work Experience

Full Stack Engineer (Node.js & React)

BranchX India Pvt Ltd - Bengaluru

1. Engineered and deployed high-value LLM-powered solutions, including a large-scale Repository Code Agent, AI chat agents, and a face recognition system with auto wake-up triggers.
2. Led a critical cost optimization initiative, migrating the BranchX 10X FI Fintech application architecture to serverless functions (Lambda) and implementing advanced caching, resulting in a 70% reduction in server costs.
3. Served as Front-end Architect for the full-stack Xpandifi project (team of 5), driving the adoption of a modular component system based on Atomic Design principles.
4. Delivered e-commerce automation by implementing the Amazon SP-API for seamless listing and inventory syncing across UK and European marketplaces in Xpandifi.
5. Collaborated on back-end database schemas to ensure efficient API-driven data mapping for dynamic UI rendering and contributed to the revamping of the Torus Digital Partner Portal Frontend.

Full Stack Web Engineer (Laravel + React)

Express Parcel Man Logistics Pvt Ltd - Bengaluru

1. Led a Factory2Door project development phase, System architect, Payment Flow and Back-end and Front-end features.
2. Led the development of a comprehensive warehouse management system (WMS) to optimise inventory control, order fulfilment, and logistics operations.
3. Implemented automation solutions to streamline repetitive tasks, improve efficiency, and reduce manual effort
4. Conducted code reviews, performed testing, and ensured code quality and adherence to coding standards.

Frontend Developer

Reman Life Care Pvt Ltd – Noida

1. Developed visually appealing and user-friendly interfaces for various web applications using React.js and Node.js.
2. Implemented responsive design principles to optimise user experience across different devices.
3. Collaborated closely with designers and back-end developers to ensure smooth integration of front-end and back-end components.
4. Participated in agile development methodologies, including sprint planning and daily stand-ups.

Professional Development

1. Pursuing **BS in DATA SCIENCE & AI** from **INDIAN INSTITUTE OF TECHNOLOGY GUWATHI**
2. Continuous learning through real-world projects and self-directed study
3. Specialized focus on JavaScript, React, TypeScript, Python, and LLM
4. Constantly experimenting with new technologies and solving practical challenges
