
OBJECTIVE

“A motivated CSE student aiming to gain industry exposure while applying technical knowledge and improving problem-solving skills.”

EDUCATION

T John Institute of Technology
Computer Science & Engineering, CGPA: 8.30 (up to 5th semester)

Bengaluru, India
Sep 2023 – 2027

SKILLS SUMMARY

- **Languages:** C, Java (Beginner), Python (Beginner)
 - **Web Technologies:** HTML5, CSS
 - **Databases:** SQL, DBMS Fundamentals,
 - **Frameworks and Tools:** Git, GitHub, VS Code, Eclipse, Excel
 - **Soft Skills:** Problem solving, Debugging, Time management, Team collaboration, Quick learner
-

EXPERIENCE

COMEDKARES – Student Project / Internship

Smart Vehicle Management System

- Designed and developed a Smart Vehicle Management System using sensors to monitor and manage vehicle parameters efficiently.
 - Integrated sensor data to improve vehicle tracking, safety, and performance monitoring.
 - Gained hands-on experience in IoT concepts, hardware–software integration, and real-time data handling.
 - Enhanced problem-solving, teamwork, and practical implementation skills.
-

PROJECTS

Glinkle – AI-Based Resume Generating Website

- Developed an AI-based web application that generates professional resumes based on user inputs.
- Implemented automated content generation and structured resume formatting.
- Focused on user-friendly design to simplify resume creation for students and job seekers.

Technologies: HTML, CSS, JavaScript, AI Concepts

Online Shopping Management System

- Designed and implemented an online shopping management system to handle users, products, and orders efficiently.
- Implemented user authentication, product management, and order processing modules.
- Applied database connectivity and backend logic for smooth system functionality.

Technologies: Java, JDBC, MySQL, SQL

Smart Vehicle Management System

- Developed a smart vehicle management system using sensors to monitor and manage vehicle parameters.
- Integrated sensor data for real-time vehicle monitoring and improved safety.
- Gained hands-on experience in hardware–software integration.

Technologies: Sensors, IoT Concepts, Embedded Systems

CERTIFICATES

- Microsoft Azure AI Fundamentals – IN-BIOT Private Limited	2024
- Microsoft Azure Fundamentals (AZ-900) – IN-BIOT Private Limited	2024
- Innovation and Design Thinking Program – ComedKares Innovation Hub	2024
-Java programming (Beginner Level – Great Learning	2024
-Networking Basis-Cisco Networking Academy	2025

Technical Interests:

- Artificial Intelligence
- Machine Learning
- Full-Stack Development
- Web development
- Software Testing.
- Data Analysis
